EXPERIENCE

July 2020 – Present

Product Designer / Duolingo

Currently, helping to design the best education in the world and make it universally available to everyone. Specifically focusing on the core learning experience.

May 2019 – August 2019

UX Design Intern / Google

Spent an entire summer with the Google Duo Team, designing novel ways that video calling can help people stay in touch with their close ties on all available platforms and devices.

January 2019 - Present

Experience Designer / Freelance

Ongoing freelance gigs for a variety of both established and up-and-coming clients and brands. Work spans multiple industries like food/beverage, entertainment, and technology and covers various needs such as branding, UI/UX design, strategy, and experience design.

January 2019 - August 2019

Web Assistant / VCU Marketing

Developed websites and webpages for the VCU College of Engineering. I introduced a UX first approach to redesigning older sites – leading to an increase in performance and easier navigability for visitors.

May 2017 - May 2018

Web Developer / ITFederal, LLC

Served as the sole web developer and designer for a shipping startup based in Northern Virginia. I designed and launched the startups website and implemented a custom CRM solution to manage prospective clients.
